DETAILED ACTION

This Office action is in response to application papers filed on 09 March 2004, which includes a preliminary amendment that has been entered.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-6 are drawn to a composition and related methods of making and using, classified in class 438, subclass 778.
 - II. Claims 7-13 are drawn to a porous film, classified in class 257, subclass 758.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another

and materially different process, such as a porous silicon oxide film formed by a method that does not require the use of the applicant's as-claimed trialkylmethylammonium hydroxide catalyst. The applicant is reminded that the patentability of product-by-process claims is determined on the basis of the structure implied by the process and, accordingly, is not limited to the manipulations of the recited process steps (see MPEP section 2113).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 2813
